

IT'S WATER FILTRATION YOU CAN TRUST!

THE PURE SOLUTION

Our products polish water to premium quality so that water is sparkling and free of unwanted tastes and odors. You'll taste the difference in every sip and everything made with water will taste better, too.

THE SENSIBLE SOLUTION

Our filters reduce lead amounts in your water – below the Federal Action Level of 10 ppb – as well as parasitic protozoan cysts and other microscopic particles that may be in your water supply.

THE CONVENIENT SOLUTION

Everpure systems are easily installed using common household tools. Our systems mount under your sink and are plumbed to a separate filter faucet. And cartridge replacement is easy, too – just like changing a light bulb.

THE PRACTICAL SOLUTION

At only cents per liter, this system is less expensive per glass than bottled water or other drinking water systems and provides about a year's supply of water, depending on the size of your family and the amount of water you drink.

System Tested and Certified by NSF International against NSF/ANSI Standard 42 and 53 for the reduction of:

Standard 42 - Aesthetic Effects:

Chemical Reduction

- Taste and Odor
- Chlorine

Mechanical Filtration

- Particulate Reduction: Class I

Standard 53 - Health Effects:

Chemical Reduction

- Lead

Mechanical Filtration

- Cyst

SPA-400 UNDERSINK DRINKING WATER SYSTEM

The same commercial quality that makes Everpure the overwhelming choice for water filtration in restaurants is also available for your bathroom. Everpure's exclusive precoat filtration technology combines Micro-Pure and a unique pleated filter membrane to reduce particles as small as 1/2 micron. This highly engineered design offers the largest filtering surface area, longer filter life and consistent performance.

High flow rate

Exclusive filtration technology
Retains the essential

FEATURES

- ▶ The exclusive precoat technology combines Micro-Pure filtration media and a unique pleated filter membrane to **reduce particles as small as 1/2 micron**. This design offers the largest filtering surface area, a longer filter life and consistent performance
- ▶ **High flow rate** of 8.3 Lpm
- ▶ Everpure systems reduce contaminants, yet **retain vital minerals naturally present in water**. So the water tastes crisp, clean and refreshing
- ▶ Adsorbs common earthy, moldy, fishy tastes, and odors
- ▶ Everpure's metal canister delivers commercial grade durability and quality
- ▶ Built-in water shut off

No extra faucet needed
Water you can trust
Taste of nature

BENEFITS

- ▶ This Everpure undersink drinking water system gives a **great tasting water** – all you want, on demand – for **cost far less than bottled water**
- ▶ The **high flow rate** provided by this system **avoids to install an extra faucet**
- ▶ Ideal for **teeth brushing** in hotels or houses bathrooms.
- ▶ **Premium Quality** – Addresses issues, associated with water quality in bathrooms.

TECHNICAL SPECIFICATIONS

- Flow rate: 8.3 Lpm
- Temperature: 2-38°C - cold water use only
- Pressure: 0.7-8.6 bar
- Capacity: 11.356 L (approximately 1 year of water supply, depending on family size and the amount of water you drink)

GENERAL INSTALLATION / MAINTENANCE REQUIREMENTS

- Space requirement: 51H x 13W x 13D cm including 6.5 cm of clear space under unit for cartridge change
- Replacement of cartridge(s) when capacity is reached, or when flow becomes too slow, but at least annually

CONTAMINANT REDUCTION

- Lead
- Cysts such as Giardia lamblia, Entamoeba histolytica and Cryptosporidium parvum
- Chlorine
- Taste & odor
- Dirt and cloudiness*
- Mold and algae*
- Particulates (oxidized iron, manganese and sulfides)*

*As tested by Everpure, LLC
